The Town Council

At the council meeting last week Councilman Vahlstrom wanted to know why the post house had been carried to the nuisance ground and if it were the intention to take people out of small pox there.

It was explained that it was too good a building to burn and there was hardly sufficient value in it to justify buying a lot to put it on so it was taken to the nuisance ground.

Mr. Bowen said it was pleasured and it didn't make any difference where it was put there wouldn't be a kick. The mayor said it wouldn't be so bad if the old were buried and the manure burned regularly at the nuisance ground but the way it had been kept in the past made it an undesirable location for sick people. Dr. Leam the medical health officer will be asked to report on it.

There was the ever present problem of the police court and cells accommodation and the equipment for the fire hall, with the familiar threat that the men would resign etc. and the mayor said about the only way to solve the question would be to pledge the town credit for 20 years and invest \$2000 in a suitable building. The rents now paid would make quite a saving. There is the rent of the council chamber, the rest of Mr. Perry's office and other expenses which would be obtained by having a building the town owned.

There was some talk of the court case being placed at the disposal of the town but the court house as yet is nothing but a dream. There is need of another cell at the police station and to provide that the man who sleeps there would have to move out of the cell. The bridge would be a more permanent solution. With all these perplexities it is no wonder the mayor suggested a nice little building all our own. The question of the necessary accommodation is left to the fire committee of which Councilor Milnes is chairman.

On suggestion of Councilor Holmes the town will get after property owners using barbed wire for fences. There have been a number of complaints of garments being torn as people walked along the streets and besides it is a trifle out of date for town fences. Notices will be sent to the parties concerned and if that doesn't result in modern fencing the town will prosecute them for maintaining a nuisance. The date fixed for the new fences to make their appearance is June 15th, after which look out for the police man he will catch you sure.

A petition was read signed by all the property owners on Knob hill asking for house connections for water and that the tank on the hill be built.

It was favorably received.

The complaint made against M. H. Perry about the water service has resulted in a new man getting the job. Mr. Burnham having failed to tender, the tender of Mr. Parker for the work of connecting houses with the water service was accepted. There was a short discussion on the labor proposition but the councilors thought this was a case of where contract work would suit best.

Mr. Milnes asked permission to put a septic tank on the street in connection with his new building and the request was referred to a committee for a report. There was no objection if the water service is properly protected.

There was some discussion about the proposed grading of the road the town water ditch is on by the local improvement council. It was thought there was sufficient room in the opposite side of the ditch for all road purposes and the L. I. D. council will be asked to favor Claresholm by not removing any earth off the ditch endangering the pipes to frost. As Messrs. John Stevenson, Fred Garrow and the others connected with the council are public spirited men there is not the slightest doubt but they will do every thing possible to protect the towns water service. They are not the kind of men who do small things.

The entire plant in connection with the water works and light has been adequately insured.

Barons' First Council

The election of the first council for the village of Barons on Wednesday last resulted in a close vote there being only seven votes between the highest and the lowest man. There were three to elect and five candidates to choose from. When J. W. Brainard summed up the vote as returning officer here is what he announced:

Wm Sharpe 28; A. D. Cunningham 25; A. E. Grant 25; A. C. Meudahl 24; G. F. Mitchell 21.

The first three are elected and Mr. Sharpe as the one receiving the highest vote will likely be chairman of the council. Apparently the electors wanted to elect the bunch so close were the figures.

Test of Water Pressure

The test of the water service on Friday evening last was very successful and greatly pleased every one. The lower gave a pressure for five purposes of 44 pounds and with the pump at the creek working the pressure was up over 80 pounds. The streams thrown were eminently satisfactory and the pipes on the town streets stood the test well. There are a number of leaks but nothing serious and they were several hundred per cent better than was anticipated. It was thought at one time that all the pipes put down some years ago would have to be taken up but it is now proven entirely unnecessary. The brigade turned out in good strength and the chemicals were brought along to show the full force of Claresholm's fighting apparatus. When the new hose and other equipment is installed this town will be in a position to ask underwriters to do the fair thing and reduce the rates.

To Beautify the Cemetery

The Oddfellows will observe decoration day in connection with the order by having a general clean up of the cemetery. In other places there is generally a parade and the decoration of graves accompanied by ceremonies but it was thought that at present the more appropriate plan would be to assist in making the city of the dead more presentable. While there is more or less of sentiment about paying attention to cemeteries it is a fair indication of the civilization of the community and Claresholm burying place doesn't indicate a very high order of civilization. The Oddfellows decided to use the decoration day celebration as a starter for a nice cemetery and all members of the order are requested to gather at the hall on Wednesday evening next at 6.30 o'clock and to attend armed with spades, rakes etc to help at the clean up. If the brothers who have rigs would bring them along it would facilitate matters a lot. The evening of the civic hall holiday was selected as the one more likely to bring out a good crowd. Don't forget it Cemetery decoration Wednesday June 16th at 6.30 o'clock.

Summer Train Service

The summer table went into effect on Monday and two of the trains are different from the winter schedule. The train arriving here at 7.59 a.m. is unchanged also that arriving at 12.30. That afternoon train instead of reaching here at 4.10 arrives at 5.28 and the night train at 9.27. The schedule is now as follows.

NO ONE TO SUFFER DISAPPOINTMENT

Owing to the delays in the mails hundreds of applications for shares did not reach the Executive Office until too late. Closing out date to be extended until July 16th, 1910.

Coalinga-Eureka Oil Company, INCORPORATED.

From the volume of applications which have arrived at our office several days after the closing out date, May 28th, for shares in this company at 25 cents per share, the executive body met and decided that it would be to the best interests of all concerned to fill these delayed orders and extend the same privilege to those at a distance, who could not see the advertisement, owing to the lateness in issue of paper in time to enable them to wire their order here by the closing out date, May 28th.

This is therefore, a final opportunity for you to secure a block of stock in the Coalinga-Eureka Oil Company at 25 cents per share. No application received for less than 100 shares.

You must bear in mind, however, that no further extensions will be granted. Under no consideration will there be shares offered for sale by the company, after July 16th, at less than **Fifty Cents** per share. Do not delay, therefore, since the block to be sold at 25 cents is limited.

Since the last advertising announcement appeared in this paper, several new wells have come in with large volumes of oil in the Coalinga oil fields.

Shrewd, far-seeing investors, capitalists from all portions of the world, are thronging to Coalinga, the greatest oil field in the universe, until the district has become a veritable bee hive of men, young and old, anxious to take advantage of this great opportunity of making a maximum amount of money at the minimum of investment.

The oil fields of Coalinga are richer than the gold fields of the Yukon ever were. Do you know that if you had invested \$100 at the inception of the following Companies, you would have made:

Silver Tip.....	\$ 603
W. K.....	1,000
Sterling.....	1,000
Premier.....	1,100
Monte Cristo.....	1,120
Record.....	2,000
S. F. & McK.....	2,400
Suncoast.....	4,196
Lucile.....	5,000
San Joaquin.....	5,700
Peerless.....	6,350
Kern River.....	9,500
Central Oil.....	15,000

"Pinal" shares sold at 25 cents, they are now selling at \$25 and paying monthly dividends of 15 per cent, an income of \$60 per month on an investment of \$100. When the "Silver Tip" came in, the stock jumped overnight from 60 cents to \$4 and has been paying dividends of 10 per cent ever since.

Similar opportunities are open to you, but you must think for yourself, have the courage of your convictions and **act**.

Development work is being rushed forward on Well No. 1 of this property, with the result that within a few weeks time the drill should be down to the oil levels, and the Coalinga-Eureka Oil Company's property should be one of the biggest and most profitable properties in the Coalinga fields.

The property is especially well situated, being adjacent to the largest producing properties in the Coalinga field. This means that our property must be immediately above the great oil pools.

For 25 cents you are able to acquire **1.00** shares. The shares are non-assessable. When you have paid 25 cents per share you receive your certificate. No further demands can be made upon you.

The smallest block of stock is 100 shares, on which the terms are as follows:

What Your Money Will Buy.
Cash Plan. Five per cent deducted.

\$ 23.75 will buy 100 shares, par value	100
47.50 will buy 200 shares, par value	200
118.75 will buy 500 shares, par value	500
237.50 will buy 1000 shares par value	1000

Installment Plan.

\$10 cash 7.50 a mo. for 2 mo. buys	100 shares
20 cash 15.00 a mo. for 2 mo. buys	200 shares
30 cash 22.50 a mo. for 2 mo. buys	300 shares
40 cash 30.00 a mo. for 2 mo. buys	400 shares
50 cash 37.50 a mo. for 2 mo. buys	500 shares
100 cash 75.00 a mo. for 2 mo. buys	1000 shares

Prospectus and fuller information will be furnished on application.

In conclusion, reservation will be made in the order received, therefore, make your reservation at once, reserving for stock by cheque, draft or money order.

Make all cheques, drafts and money orders payable to G. L. Tschereau, Trustee.

Auction Sale of Dominion Lands.

PUBLIC NOTICE is hereby given that Auction Sales of Dominion Lands formerly reserved for Stock Watering purposes will be held in the province of Alberta as follows:—
Calgary, Tuesday, 5th July, 1910, 10 A. M.

Nanton, Friday, 8th July, 1910, at 10 A. M.

Pincher Creek, Monday, 11th July, 1910, at 10 A. M.

Lethbridge, Wednesday, 13th July, 1910, at 10 A. M.

The sales will be subject to the following terms and conditions:—

1. The Department reserves the right to withdraw any of the lands from the sale or to include any other lands therein.

2. Lands will be sold at an upset price of \$300 per acre. All sales of areas of eighty acres or over will be subject to the performance of ordinary homestead duties as provided in the regulations with the following exceptions:—

Any person may be permitted to purchase, whether eligible to make homestead entry or not.

Reserve must be performed on the land purchased—except in the case where the purchaser holds a homestead, pre-emption, or purchased homestead, or patented or unpatented, lying alongside the land he buys, or separated therefrom only by a road allowance, in which case the residence duties may be performed by living on the homestead, pre-emption, or purchased homestead, as the case may be. When residence is so performed, however, the purchaser will be required to increase the area of breaking and cultivation on the lands so purchased in the same manner as required by a homesteader who performs residence in the vicinity of his homestead.

3. No in case will a larger area than one quarter-section be disposed of to one person.

4. The purchaser of any parcel of land will be required to pay the value of any improvements that may have been placed thereon prior to the time of sale. Such payment shall be made on demand.

5. The sale will only convey the surface rights, and will be subject to the usual reservations in favour of the crown.

6. When any parcel offered is crossed by a highway or railway, the sale of such parcel shall be subject to the reservation of the land covered by such highway, or which may be required for the right of way or other purpose of the railway.

TERMS OF PAYMENT.

One-quarter of the purchase price shall be paid in cash at date of sale and balance in three equal annual installments, with interest at the rate of 5 per cent per annum on the balance of the purchase money from time to time remaining unpaid.

Cheques will not be taken in payment unless marked "accepted" by the Bank on which they are drawn, and made payable at par at place of sale.

Lets of lands to be sold may be obtained on application to the secretary of the department of the Interior at Ottawa, the Inspector of Ranches at Calgary, or to the Agent of Dominion Lands at Lethbridge or at Lethbridge.

W. W. GORY,
Deputy Minister of the Interior, Ottawa, 16th May, 1910.

An Old Timers' Story

(Continued)

There was a small settlement, about fifty miles northwest from here. Charley asked me if I would make a flying trip to said settlement and notify the people, I said I would. I selected two of the best horses from a bunch of seventy head and started north-west through the hills, the noble red men following the stream. I rode all night and the first house I found was deserted, and the next place, a man by the name of Holman his wife and child lived in a dug out. I informed them of the approach of the Indians, but at the same time I assured them that the Indians would not be there before the next day. I left one of my horses with Mr. Holman for the day, while I went over to Thompson creek, about 12 or 15 miles south of Holman's to notify the people there. On my return when within about a mile of the dugout, six Indians, a scouting party for the main band, came toward me as if they were anxious to keep me company. I creased solitude just then and hit for the dugout and they in close pursuit. I fired back at them with my pistol but without effect. When I arrived at the dugout, I leaped from my horse, leaving the reins over his neck and him on the run. I ran into the dugout grabbed Mr. Holman's gun, asked Mrs. Holman for cartridges, saying "there is an antelope out here" she screamed Oh! it is Indians and she and three other women, made a mad rush to get under the bed, but they fell down on Mrs. Holman's feet and none of them were able to get under the bed. It seems, that while the men were at work on a house about half a mile north of the dugout, the woman had stayed at the dugout to quilt and gossip. I could find only one cartridge, lying in the gutter. One little woman by the name of Griffin, was more composed than myself, she said, "Let's put the table against the door" this we started to do, when I saw a brave coming down the run way. I dropped the table and fired at his abdomen, he leaved there for the time being. The brave little woman went to the pile of rights, pulled the women off of Mrs. Holman's feet and asked for the cartridges, she got no reply, but Mrs. Holman got further under the bed. One of the brave raised the roof pole, letting in lots of dirt and a little light into the dugout. I had my pistol in my hand, having left my Winchester on my saddle. I fired at the Indian's legs and he dropped the pole and fell backward. The brave little woman pulled me away from where I stood so avoid being located by the Indians. Another one raised a pole with the same result, as before. All was now quiet, and soon we heard voices by the men, who had been attracted by the shooting and when the Indians came then coming they fled from whence they came. The party was reinforced from Thompson creek, by five men and three women and two children. They proceeded to fortify, thinking the main band would sure come this way. They worked most all night, while I slept, having rode all night the night before. They (the men) caught my horse on the way to our rescue, he having gone that way. I started at day light for the next settlement, about ten or twelve miles from Holman's. When I had gone about seven miles, I saw a man fixing a mower, the ground was a little swampy. I rode up to him and said,

To be continued.

THE FIRE BRIGADE

At the council meeting on several occasions lately there have been discussions on the fire brigade, its equipment and the needs of the town along fire fighting lines. With the talk there have been hints that the "brigade would resign" if certain purchases were not made and due recognition given the men. Clareholm is not able to pay fire fighters and like all towns has to depend on volunteer work. Every man turns out and does his share when fire threatens but fortunately Clareholm has been remarkably free from fires and there hasn't been much call on the citizens to display their energy and patriotism. Now that the town has a water works system and the equipment for fighting fires there is to be a demand on the underservers for volunteers to man the fire engines. This makes it all the more imperative that there should be a good volunteer brigade and that the department should be thoroughly organized. To have the hydrants, fire pressure, hose, ladders, etc. is not enough to secure the most favorable consideration from the insurance men. There must be organization on the part of citizens and a volunteer brigade so well organized and trained that the water will be pouring on the burning structure in a few seconds after the alarm sounds. The underservers in the town have the habit of dropping into towns on very unexpected days, pulling the alarm and holding the water on the time the alarm sounds, the time the brigade and equipment reach the scene of the supposed fire, and the time the hose was connected and water playing on the building. To respond to this test practice is necessary and it will not do for the business man who will benefit most by the decreased insurance to overlook the necessity of taking a part in the protection of the town. No man, unless he be a big man with the undivided respect of the community, can hope to make a volunteer fire brigade. With a salaried force it is different. The men then have to earn their pay, or quit. With a volunteer brigade the support of the best in the town is essential and the Review believes that the business men and the young men of Clareholm would respond to the call, which not only ensures adequate protection, but financial remuneration in the form of decreased insurance rates. Ten per cent would mean more to this town than that secured by installing the water system.

EXCELLENT APPOINTMENT

The appointment of Mr. A. B. Macdonald as superintendent of the National Park at Banff will be received with great pleasure by his thousands of friends throughout the constituency. It is understood that Howard Douglas who was superintendent has been appointed to superintend all national parks and will have jurisdiction throughout the Dominion. Mr. Macdonald succeeds him at Banff and the Review is sure no more fitting appointment could have been made. Mr. Macdonald will fit into the position well and the country will find in him a faithful servant who first thought will be of duty and the country's interests. Mr. Macdonald has been in Western Canada for many years, and if the government had searched the country no more qualified man could have been found for the position. The Review joins in the congratulations and trusts that the veteran westerner will long be spared to serve his country in the position of superintendent of the finest piece of natural scenery the world has for show purposes. When you go to Banff call on Mr. Macdonald.

Musical Examinations

In connection with the Musical Examinations held in Clareholm, May 20th those interested in the progress of such may find the following worthy of notice:

The Royal Academy of music was founded 1822 by the Earl of Wesmoreland and the patronage of His Majesty King George IV. The Royal

College was founded by His Majesty the late King Edward in 1882 with Sir Hubert Parry as director. These two musical Colleges in 1889 combined their forces and instituted the examination now held all over the United Kingdom. The examinations which are taken are seven in number. Primary, Elementary, Lower, Higher, Intermediate, Advanced and the degree of L. R. A. M. and L. R. C. M. Lists of music for different grades are published under the inspection of the Associated Board and these are sold to each candidate at 50c each. The results of the 1910 examinations were before the date of examinations and are as follows, \$1.75 \$2.50 \$5.00 \$5.00 \$10.00 \$10.00 and \$25.00. In 1909 eighteen pupils took the examination in Clareholm, all being successful. Seventeen of these wrote in Theory and Harmony with one failure. Seven of these took Honors. All twenty were successful and three took honors.

Four candidates wrote in Intermediate Harmony and succeeded in passing. Out of twenty-four who played twenty were successful and three took honors.

Intermediate Harmony: Ethel Cunningham, Hazel Strang, Mable Anderson, Pearl Gray.

Practical Exams: Intermediate: Mable Anderson, Pearl Gray. Higher: Eva Braven. Lower: Eleanor Lashbrook, Russell Haig, Guel Strang, Grace Anderson.

Elementary: Ella Lockwood, Jean Robertson, Gertrude Malchow, Blanch Averill, Robert G. Holden, Frank Brown, Willard McKinney. (Honors) Bruce Haig. Primary: Burpee Steeves, (Honors) Morley Tillotson, Jessie Elveum, May Amundsen, Miss Legard. This makes a total of 83 per cent for Clareholm and when compared with other places especially cities where advantages are supposed to be greater the cause for pleasure is all the more pronounced. Mr. W. G. Moffatt who taught these pupils has every reason to feel proud of the achievement. Bradford passed 50 per cent, Windsor 40 p. c., Montreal 60 p. c. and in Calgary out of 130 pupils 93 were successful or 71 per cent. Clareholm easily heads the list in percentage.

PAINT FILMS

The paint you put on your house should be a protecting film that will stay on and keep decay out.

Some mixtures, called paint, never do this, others do it sometimes, but

THE SHERWIN-WILLIAMS PAINT

does it always.

It is the best protection you can give your house. It does not powder, flake off or crack. It forms a tough, durable film that will last longest and look best.

would do well to see us. . . We have it in large quantities at the lowest prices.

Who Said Buggies?

Yes we have just three left and they are going to the men who need them at absolute cost. We announced that we were going out of buggies and we meant it. We have sold all but three. They can be had at a bargain. Act quickly.

Chicfly Claresholm

Mr. C. J. Cote was in Calgary for the week end.

Miss Hoskin of Toronto is the guest of Mr. and Mrs. K. F. Ferguson. Earthquakes are again shaking Italy and Vesuvius is in eruption.

R. L. Walsh spent a couple of days this week visiting at Mr. Deforests, Meadow Creek.

Goldwin Smith died in Toronto on Tuesday.

Rev. A. B. Argue returned from the conference in Red Deer on Wednesday.

Pratt and Gibson have dissolved partnership in the "Blue barn" heavy stables the business being carried on by Mr. Gibson.

Mr. A. B. Macdonald who has been appointed superintendent of the national park at Banff left on Monday to take over his duties.

Miss McKinney spent Sunday in town. She is on the Nanton teaching staff at present relieving for a teacher who is on the sick list.

Mr. T. W. Quayle and son Albert have returned from a visit to Calgary. While away Mrs. Quayle attended the W. M. S. convention at Red Deer.

The contract for the fine new Milnes and Noble's block has been given to Percy Taylor of High River. It is to be completed in four months.

Miss Hood left on Saturday last for Edmonton where she was to attend the provincial convention of the Woman's auxiliaries as delegate from St. Johns church auxiliary.

Frank Hagerman of the firm of Porter and Hagerman has transferred his interests to H. Porter who will continue the well built up implement business. Mr. Hagerman will go on the road for the International Harvest Co.

Mr. J. E. Ardell is announcing a public auction sale of his stock of jewelry etc starting on Saturday next at 3 o'clock. There will be sales every day at 3 o'clock p. m. until the stock and fixtures are sold. As Mr. Ardell is selling out everything goes without reserve.

T. A. Sedgely formerly of Claresholm has bought a business at Nantong, England which includes Hair dressing, tobacconist, news agent, umbrellas recovered and repaired. His address is 40 Atholborough road Nantong, England.

Don't forget that J. E. Ardell's jewelry stock is to be sold by auction next Saturday afternoon and following days until all is disposed of. Mr. H. Thornton Bolt of Calgary will sell the business assisted by his partner who speaks several languages. The stock will be sold without reserve.

At the school board meeting Wednesday night the term for the Summer holidays was fixed for eight weeks ending August 20th. Inspector Broves report was of a very satisfactory character and praised all the teachers. He congratulated the people of Claresholm on the fine school and the sufficient staff.

Mr. W. Barclay was in town this week looking in the pink and received a hearty welcome from all. Being on the road apparently is the proper career for Mr. Barclay for it was remarked by everyone that he never looked so well.

Work started this week, Thursday June 19th, for the building of an addition to the Catholic Church. The members who would contribute with their work and even with a team would be welcome.

Mr. T. A. Murphy of Didsbury was the guest this week of Mr. and Mrs. J. O. White. He was on his way to Lethbridge to attend the Baptist provincial convention and visited here enroute. He was an old school chum of Mr. White in school days in Kansas.

The Alberta rangers go into camp at Calgary next Tuesday. There is still room for a number of recruits and as there is a dollar and a half a day in it, and keep and a holiday to boot, they should be no trouble filling up the ranks. See Charley James or James H. Haslam about it.

The open air service conducted by the Epworth League of the Methodist church on Sunday night last was well attended and was most interesting. Music was the chief feature and the well known gospel songs were sung with a vim. Mr. Walter Lindenfeld, president of the league, presided and during the evening sang a solo, much to the pleasure of the audience.

Mr. G. H. Schoof has returned from a lecturing tour in which he covered the Southern States and Mexico. He hasn't many kind words about the country and says the feeling there is very antagonistic to Americans but friendly to Canadians. In South Dakota the weather was cold and dry and there was anxiety about the crops. In Kansas the crops looked well but in Oklahoma and Texas frost and hail had done enormous damage. He predicts that in the panhandle country the wheat will not go five bushels to the acre. The short crops through all the middle west states should make prices good next fall.

Mr. Henniker of Starely was summoned to appear on Saturday this week to answer a charge of doing business for a foreign company in this province without being registered under the Foreign companies act. It seems that Mr. Sheldon Clawson of Utah is here with an invention of his own which if it measures up to the claims will revolutionize the mining business. It is a machine for extracting metal from ore and is said to do the work of five machines now in use at the smelter. Considerable stock has been sold in the district and Mr. Henniker has been the agent responsible for the sales. The company owning to the patent is incorporated under the laws of the state of Utah and is said to make up of most reputable men.

There was a bumper attendance at the United Farmers meeting in the council chamber on Saturday last the president E. W. Frost in the chair. The item of business was the arranging for a car of binder twice the size of Frank Murray being accepted. The twine will be laid down in the store house and the farmers privileged to take it as they need it. The contract reads that in the event of a crop failure, hail storm or other misfortune, the contract is not binding. It is understood the contract price was \$8.72 a cwt. The experiment of the farmer in crop-mature laying will be watched with interest. The organization can be made a great benefit to the farmers if properly managed and in the hands of the present officers there is every reason to feel that the Claresholm branch will do a splendid work.

It is rumored that W. L. Walsh, a prominent Conservative is to be appointed to the supreme court bench to fill the vacancy caused by the retirement of Premier Sifton.

The Calgary Exhibition

In a province with the opportunities there are in Alberta, it is most difficult to secure adequate help on the dairy farms. It is becoming more difficult in the thickly settled and arid provinces, and the milking machine is now taking a more important place in the necessary equipment of the dairy farm and yet up to the present there has not a milking machine in operation in Alberta. For this reason the directors of the Provincial Exhibition to be held at Calgary June 30th to July 7th, decided to obtain a herd of 20 dairy cows and conduct a milking machine demonstration during the exhibition. The dairy herd will be fed by three or four different kinds of up-to-date stanchions. Prof. Elliot, Superintendent of the C. P. R. Demonstration Farm, who has had wide experience with milking machines, is taking charge of this department and will give instructive lectures each day during the fair. The demonstration will be in the large sale building where we have seating accommodation for over 1000 people.

One of the attractions of the exhibition secured at an enormous expense, is Albert's Ten Snow white Polar Bears. These bears are beautifully trained, and recently delighted the audiences at the New York Hippodrome, the largest theatre on the continent. It speaks well for the exhibition when an act such as this is brought from New York's largest theatre where the stage is over 200 ft. wide and practically 10,000 people see their wonderful programmes daily, and only the best acts are fortunate enough to secure engagements at this theatre.

The Navassars Ladies' Band which is coming to the exhibition is quite equal to the most famous male bands. Entries for the exhibition close June 18th.

SPORTS

Clareholm 25 Stavelly 5

The score about tells the story of the game at Stavelly on Tuesday. It was too lopsided for even a good newspaper story. For the first three innings the Clareholm boys swatted Haines unmercifully and piled up nineteen runs. Just think of it! Nineteen runs in three innings. What's the use of writing up a game like that. It was like taking shovels from the baby's bank. After the fifth Haines did better and held the visitors down tighter. It was a game devoid of feature other than the scampiering of Clareholm boys around the bases. Bert Perry and W. A. Carmichael were the umpires and escaped without being knocked down. Here's the score by innings it all thers to it.

Clareholm 6-7-6-0-2-1-0-1-2 - 25
Stavelly 0-0-1-0-0-1-0-2 - 5

Granum Defeats Macleod

At Granum Wednesday evening the Granum team defeated the Macleod nine 8 to 5. It was Granum's first win and was quite popular with the big Clareholm bunch who saw the game. It stemmed the tide of Granum's reverses and a better showing is expected from now on. Granum plays at Clareholm next Wednesday.

Parkland Won From Cayley

In a ten inning game John T. North's Parkland peaches took the Cayley team into camp on Saturday last by a score of 15 to 11. As will be seen it was in the last inning that the axe fell. Robertson and Hawk were the Parkland hitters and Doughton and Stewart did the execution for Cayley. Messers North and Wiggins were umpires.

Macleod Defeated Stavelly

At Macleod on Saturday last Macleod defeated Stavelly 6 to 4 in a well contested game.

Leagues Standing

	Won	Lost	P. C.
Clareholm	4	1	800
Macleod	4	2	669
Stavelly	2	4	333
Granum	1	4	205

First Football Match

In a football match Wednesday night a team captained by J. R. Watt defeated an eleven representing the Y. M. C. A. As three or four of the Y. boys went to the base ball game at Granum and the eleven had to be recruited from the side-line the showing of two to one wasn't too bad. Mr. Watt had an excellent team and it was easily seen that this town owned out a winning eleven on the field this season. "Pat" Roman was referee.

He Was Fined \$200

H. Barker of Granum who was convicted of an assault on Umpire Robertson on the occasion of the Clareholm-Granum game was fined \$200 and costs by Mr. Justice Harvey at the assizes at Macleod. His Lordship said that the interest of friends and his previous good record saved him from the term of imprisonment provided for in the law.

Slampering Clareholm

The Stavelly Standard is edited by an estimable gentleman but when it comes to writing base ball reports he does not do credit to himself or his town. The Standard is apparently devoid of the idea that the proper paper is to impugn the honor and

character of rivals and to make out a clean bill of health for the Stavelly team. The charges of "blackguard conduct" and "billingsgate" against Clareholm players is not only untrue but is, to be blunt, a lie. The Review does not for a moment suppose that the editor of the Standard is writing this trash from any knowledge he possesses of the situation but is allowing others to load him up with a lot of nonsense. The Review is quite positive that the editor of the Standard is not inclined of himself to be unfair but we can tell him that the maligning of other towns will not in the long run help out the game in Stavelly. So far as Clareholm is concerned this town is financing its own club and is determined to land the pennant here if carrying a winning nine is the way to do it. The Standard's comment on the recent game in Clareholm in which Stavelly players figured was grossly unfair and very untrue whether the editor intended it to be that way or not. As to gentlemanly conduct the Review is quite positive to have very much to say about it but we do not mean to insinuate that the majority of the Stavelly players are not gentlemen. So far as profanity is concerned it is deeply to be regretted that the custom is not confined to baseball players and the use of blasphemy is much too common an offense against decency in the west. Baseball players are no worse than other and all players are not profane. It might shock the editor of the Standard to learn that when it comes to profanity a number of the Stavelly players would stand an excellent chance of a high rating in violating the third commandment. In fact while the Review did not mention it, it was only on the occasion of the recent game that the captain of the Clareholm nine had to go to one of the Stavelly team and ask him to stop his foul talk in deference to the presence of the ladies. If any Clareholm man were to shout profanity like one Mr. Hughes did here the Review would certainly do him in making this an unpleasant locality for him to dwell in. Dear Mr. Standard the Clareholm players are quite as moral as the Stavelly players and have not

Now Everybody Laugh

Wouldn't the following be quite enough to blow the berries off aunts bonnet? It is from the Stavelly Standard.

"Macleod and Clareholm played on the latter's diamond on Wednesday, and a heavy dust storm, the score being 10 to 4 in favor of Clareholm; but the genuineness of Macleod's playing must be taken into account. Pity the fact that their three first games this last one looks very false. Would it be much better with the losing?"

Items of Interest

H. H. Miller, M. P., father of the anti-betting legislation, was given a great reception as he entered the Hamilton Methodist conference as a delegate. Joseph Gibson of Inverness, a prominent Conservative, delivered a eulogium.

Buy a Die Harrow that follows the unevenness of the ground, and you will buy a Massey-Harris.

\$40 acres will be watered by the new irrigation project to be built by the C.P.R. the first soil of which was turned last week.

The Die Harrow that cuts best, lasts longest, rides easiest, pleases most, is the famous Massey-Harris.

Weekly rates subsidized by A. & G. W. interests are trying to be made the character of Hon. W. B. Cushing. It won't help much to solidify the Liberal ranks.

Massey-Harris Binder is considered the best the world offers.

Calgary police will try to stop betting at ball games.

The farmer who is careful and cautious buys a Massey-Harris Binder because it lasts longer, elevates better and ties surer than any other make.

W. R. Tiffin, one of the oldest Grand Trunk superintendents in the service is dead. He was buried at Barrie.

Iowa for corn, Alberta for horses and Massey-Harris for binders, are the world's leaders.

Three were 45267 emigrants entered Canada in April or over 1900 every day of the month.

Look at the Massey-Harris Binder Reel, seventy adjustments.

Dr. Anyot of the provincial laboratory says the rabies situation in Ontario is serious.

Look at the Massey-Harris Binder Frame, built like a bridge. The strongest made or the machine for nothing.

The bulk of the evidence taken by the Saskatchewan elevator commission favors government owned elevators.

Massey-Harris "Alberta" Mower, light, strong and durable. At all the church conferences this year the lay delegates are protesting that the ministers should be paid higher salaries.

Massey-Harris steps to the front with their Alberta Special Mower.

Hon. Macdonald King was tendered a banquet at Berlin, which was very largely attended. He announced the formation of a commission to investigate industrial training. Prof. Robertson is head of the commission.

For easy draft the Bain Wagon is the favorite.

The logboats at Pekin have been warned that an anti-dyastic outbreak is pending in China.

Bain Wagons are oil soaked, thus water-proof. 6-2-7

Witness: Fred Langmuir.

Big Money in Oil

San Francisco, June 7.—When half a century ago the United States government surveys reported crude petroleum floating on the Pacific ocean, little did they think that today the yearly production of new wells from the California oil fields would be more than all of California's mines.

Already California oil lubricates ninety per cent of the wheels west of the Mississippi and furnishes motive power for nearly half of them. Great locomotives, unheard of and impossible a few years ago and only made possible by liquid fuel, deliver oil to the furnaces of factory, mine, refinery power plant and home, while enormous tank steamers transport the oil products to all parts of the world.

The refineries of California, employing thousands of men, manufacture more than two hundred different articles of commerce, varying from the finest grades of lubricating and illuminating oils, to vaseline, or earth jelly, and kidgegrass, including various cosmetics, prismatic dyes and ointments. As a residuum after the manufacture of cheap gas, either for light or fuel, there remain the ingredients necessary for a superior grade of coke, so hard and clear that it has been called carbonite. From this product many useful mechanical agents are manufactured, among them, being carbon pencils, electrodes and an abradant emery superior to emery or corundum.

Five thousand factories in Southern California have been made possible by the use of crude oil, either as fuel direct, or converted into gas or electric energy. Railroads which have not paid dividends for years have been enabled to do so by the vast saving from fuel bills.

With a production this year that will approximate seventy million barrels, worth nearly twice as much as the entire citrus crop, worth more than the combined output of all the metal mines, with production constantly growing in response to steadily increasing prices, and an ever growing and expanding market, the outlook for the producers of California oil within the next few years are flattering indeed.

TAKEN UP—At my place 3 miles west of Clareholm E 1/2 19-12-27, one black bear. Owner wanted at once. J. W. Barrett, Esq.

To The Public Generally

Having bought the Economy Feed Stables and Drying business from Mr. W. C. Burnham I am arranging to enlarge the facilities and carry on the business on an extensive scale. I will conduct a feed and sales stable second to none in Southern Alberta and farmers in giving me their patronage will have the assurance that I know how to care for horses and use them right.

The livery department will be equipped with the best of vehicles and the speediest of road horses. Travellers and others can count on a most satisfactory service.

I will continue the drying business so well built up and hope by prompt attention to hold all the present patrons of the service and gain many new ones.

We are arranging to install a stock yard and weighing scales and will soon make an announcement of interest to the town.

A. E. Hunter.

Palace Livery, Feed, and Sale Stable.

Frost & Wood No. 3 Binder Has a Strong "Back Bone"

The Frost & Wood No. 3 Binder is built to stand more hard knocks than a binder is commonly supposed to encounter. Striking a bolder or bumping over rough ground does not affect this binder. That's because the binder's back bone consists of heavy pieces of steel firmly riveted together and because the platform is connected to the main power frame by a double steel brace. It's the quality in material and workmanship that the makers put into the Frost & Wood No. 3 Binder that enables it to give three to five times as many years of service as ordinary binders.

We would like the privilege of showing you the construction of this binder. Then you can be your own judge as to its strength. We would also like to point out to you the Advantages of the Eccentric Sprocket Wheel, which is found on no other binder. This Eccentric Sprocket Wheel makes mowing, more compact, easier-to-shock bundles and discharges them faster than ordinary binders. We also wish you to see the No. 3 Knoster, which never hesitates an instant, no matter how hard and fast you ask it to work.
